REPORT FOR THE FIELD WORK

On the day of Field work, 14th October, 2022 Tholkappia Poonga (Adyar Eco-Park) Chennai, 72 students enthusiastically assembled at the college at 9.30 am and left the college along with two staff. We reached Adyar Eco-Park, Chennai at 10.00 am. On behalf of Tholkappia Poonga (Adyar Eco-Park), Ms.Gomathy the person in-charge for our visit received us at the premises and gave a brief introduction to the Eco-Park. Then she took us around to all the places and explained the various species, functional areas, purpose of the ecological park and the process involved in the preserving the coastal species. The ecological park employees were doing the work with concentration. The visit came to an end at 12.00 pm. It was an extraordinary and interesting visit. As students of Commerce (ACCOUNTING & FINANCE), we are being taught about Environmental Science as an additional subject to learn that protecting nature is the most crucial thing, we need to give dedicated attention to. We all perfectly understand that theoretical knowledge is just not enough for a successful understanding of our nature and its current state of affairs.

We express our gratitude and sincere thanks to the Management and the Principal who permitted us to go on this visit. This EVS Field work benefited 72 second year students to acquire the knowledge on eco-friendly environment.

FEEDBACK FROM THE STUDENTS

1. Ecological Park visits provide the students with an opportunity to learn practically through interaction, working methods and employment practices of maintaining of an Ecological Park.
2. It gives the students an exposure to current preserving practices as opposed to theoretical knowledge being taught at their college classrooms.
3. Ecological Park visits grant the students a great opportunity to interact with ecological conservative institutions and know more about nature environment.
4. Ecological Park visits are arranged by colleges for their respective students with an objective of providing them an opportunity to explore the different methods on conserving species like mainly coastal species, arthropoda species, and distinct herbal plants and trees.
5. The practical knowledge of how a nature can be preserved to maintain an ecological balance, and benefit humanity and what are the real-life challenges being faced can only be learnt through have practical experience from ecological visits.

REPORT FOR THE FIELD WORK

On the day of Field work, 14th October, 2022 Tholkappia Poonga (Adyar Eco-Park) Chennai, 63 students enthusiastically assembled at the college at 9.30 am and left the college along with two staff. We reached Adyar Eco-Park, Chennai at 10.00 am. On behalf of Tholkappia Poonga (Adyar Eco-Park), Ms.Gomathy the person in-charge for our visit received us at the premises and gave a brief introduction to the Eco-Park. Then she took us around to all the places and explained the various species, functional areas, purpose of the ecological park and the process involved in the preserving the coastal species. The ecological park employees were doing the work with concentration. The visit came to an end at 12.00 pm. It was an extraordinary and interesting visit. As students of Commerce (General), we are being taught about Environmental Science as an additional subject to learn that protecting nature is the most crucial thing, we need to give dedicated attention to. We all perfectly understand that theoretical knowledge is just not enough for a successful understanding of our nature and its current state of affairs.

We express our gratitude and sincere thanks to the Management and the Principal who permitted us to go on this visit. This EVS Field work benefited 63 second year students to acquire the knowledge on eco-friendly environment.

**Dr. MGR-JANAKI COLLEGE

FEEDBACK FROM THE STUDENTS

1. Ecological Park visits provide the students with an opportunity to learn practically through interaction, working methods and employment practices of maintaining of an Ecological Park.
2. It gives the students an exposure to current preserving practices as opposed to theoretical knowledge being taught at their college classrooms.
3. Ecological Park visits grant the students a great opportunity to interact with ecological conservative institutions and know more about nature environment.
4. Ecological Park visits are arranged by colleges for their respective students with an objective of providing them an opportunity to explore the different methods on conserving species like mainly coastal species, arthropoda species, and distinct herbal plants and trees.
5. The practical knowledge of how a nature can be preserved to maintain an ecological balance, and benefit humanity and what are the real-life challenges being faced can only be learnt through have practical experience from ecological visits.

Course:	III-BSc & II-MSc	Department:	MICROBIOLOGY
Academic Year:	2022-2023	Even/Odd	EVEN
Field Work No:	01	Date:	09/03/2023

Objectives of the Field work:

1. Main aim of field work is to acquaint the students with the process of municipal waste water treatment.
2. To get the practical knowledge regarding the functioning and process of wastewater treatment plant.
3. To collect wastewater sample and analysis of the samples were the part of this field work.

Purpose of the industrial visit:

Our main purpose for this field work is to provide the practical knowledge about wastewater treatment plant process, to familiarize with industrial environment and get knowledge of different units of waste water treatment plant. Also in theory subject like Environmental Biotechnology and Environmental Microbiology requires knowledge about how components of sewage plant are constructed, so it is very much convenient to see all the practical and components in real time work environment

Timing of the visit: 9.00am -12.30 pm

Name of the treatment plant: Sewage treatment plant

Place: Koyambedu, Chennai

Chennai-23.

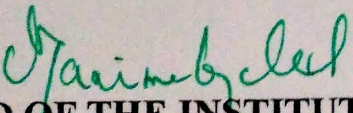

Respected Sir,

Sub: Requesting for field work – Reg.

Our academic curriculum focuses on engaging students in practical experiences relevant to the field of discipline. As a means of broadening their understanding of industrial production process, the Department of microbiology would like to undertake a field work at your industry to acquire practical knowledge on sewage treatment process.

We believe that our students will gain relevant knowledge on treatment of sewage. We would be glad if you could permit to visit your industry on 16.03.2023, 17.03.2023 and 20.03.2023 in batches of 25 students, accompanied by two of our faculty members. Kindly grant us permission to visit the sewage treatment plant in Koyambedu on the specified dates and make necessary arrangements for the same.

Thanking you,

HEAD OF THE INSTITUTION

REPORT FOR THE FIELD WORK

On the three days of field work (17/03/2023, 20/03/2023 & 21/03/2023) 90 students reached at CMWSSB, Koyambedu, Chennai, enthusiastically assembled at the entrance at 8.30 am. The person in-charge for our work received us at the premises and gave a brief introduction to the treatment plant. Then a demonstration on the process of the treatment plant (primary, secondary & tertiary plant) and methods were explained. A visit to the laboratory provided a knowledge on processing, analysis of sewage samples. The visit came to an end at 12.00 pm. It was an informative, interesting and successful visit. As a Microbiology, we learned a few new concepts about various treatment of sewage and their applications.

We express our gratitude and sincere thanks to the Management and the Principal who permitted us to go on this visit. This field work benefited 90 final year students to acquire the knowledge on Environmental Microbiology.

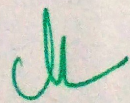

Feedback from students

Field work are usually the first point of interaction between a student and a live working industry. The students learn about the treatment and technology trend that are used in the sewage treatment plant. The treatment procedures are explained and made students to clearly visualize and practically know about the various treatment methods. It gives the students an exposure to current work practices as opposed to theoretical knowledge being taught in their college classrooms. It helps students to combine their theoretical knowledge with the practical experience of its actual functioning. Another important perk of going for an industrial visit is that it acts as a bridge between the student and their job opportunities in various fields. The chances of building-up a good relationship with the employees and actually getting an opportunity for an internship or even placement in that company is maximum based on their outstanding performance in spot assignments and showing good manners.

**CIRCULAR
FIELD WORK (2022 - 2023)**

This is to inform Department of TAMIL is organizing an Field Work on 23th September 2022 for the I, II & III year BA Tamil students to attend the institute visit.

Objectives of Field Work:

1. To acquire the knowledge of our culture and literature
2. For the students to get the knowledge of Manuscripts
3. To acquire mandatory Skills required for a fresher.
4. The primary aim of a field visit is to gather geographical details.
5. Reinforcing experiential and relational learning is the key goal of conducting a field trip for students.
6. Field trips are a way of improving learning in the classroom by creating links to the real world.

TIMINGS: From 02.00 Pm to 05.00 PM

To: principal mjc <principalmgrjanaki@gmail.com>

வணக்கம்.

தங்கள் கல்லூரி மாணவியர் உலகத் தமிழாராய்ச்சி நிறுவனத்தில் தமிழக அரசால் அமைக்கப்பட்டுள்ள, பழந்தமிழர் வாழ்வியல் காட்சிக்கூடத்தினைப் பார்வையிட வருவது குறித்து மகிழ்ச்சி.

காட்சிக்கூடம் பார்வையிடல், ஆவணப் படங்கள் பார்வையிடல் ஆகியவற்றிற்கு ஆவன செய்கிறேன்.

நன்றி.

முனைவர் ஆ.மணவழகன்

இணைப் பேராசிரியர்

சமூகவியல், கலை (ம) பண்பாட்டுப் புலம்.

பொறுப்பாளர்

பழந்தமிழர் வாழ்வியல் காட்சிக்கூடம்.

உலகத் தமிழாராய்ச்சி நிறுவனம்.

Industrial Visit No:	01	Date:	28.09.2022		

On the day of field work, on 28th September 2022, 106 students enthusiastically visited the Centre for Development of Advanced Computing, Taramani Chennai at 10:00 am. The concepts of C and OOPs were thoroughly briefed by Mr. Vimal of Centre for development of advanced computing. Mr. Vimal also briefed about the institute and explained software techniques, skills and the processes involved in programming concepts. Students were given hands on experience on the applications of software using AI.

Feedback form for Industrial visit

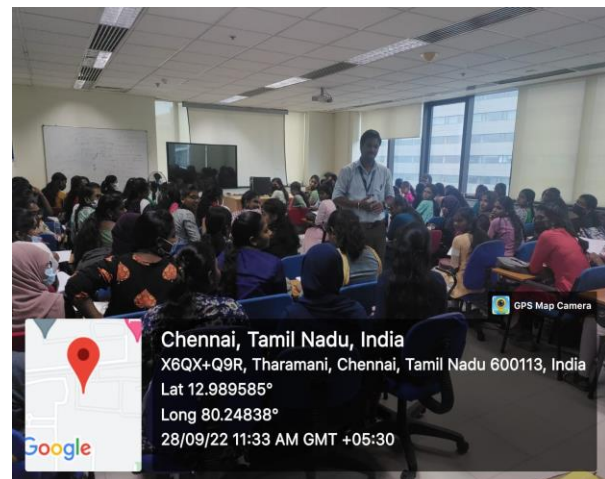

The Company infrastructure was awesome, we loved the environment. After visiting CDAC we gained knowledge about their projects and was very useful. The session was very helpful to improve our skills in communication. Thankyou for providing us with valuable learning experience.

Feedback form for Industrial visit (IV)

The company infrastructure was very Good, we liked it. we had to improve more skills like speaking, creative thinking after visit the CDAC because their communication was so technical. And they shared about their previous projects and experience which was very useful to us.

Thankyou for this opportunity, thankyou Hob mam.

LETTER FOR INDUSTRIAL VISIT

BIO MJC mic.bio@gmail.com,

5:41 PM

Dear Sir/Madam

This is in reference to our telephonic conversation with regard to the field work for our college students referred by our Corresponded and Principal

Department of Biochemistry & Bioinformatics is organizing a field work on 16th September 2022. We would like to bring the students of 1st year Biochemistry to attend the Field Work.

Total no of students: 49 will be accompanied by two staff members.

Hoping for a positive reply at your earliest convenience. Thanks and Regards

Department of Biochemistry & Bioinformatics \\
 Dr MGR-Janaki College of Arts & Science For Women Regd :

Field Work Confirmation

Mandatory Documents: College ID Card, Address proof and ID Proof Mandatory (To Enter our IT Park ID cards are mandatory since it comes on security protocols)

Things not to be carried:

Small tools. Certain tools, such as screwdrivers, wrenches, and pliers, are permitted, as long as they are seven inches or less in length.

Nonflammable liquids, gels, and aerosols. Lighters and matches.

Batteries. Knitting needles. Electronics.

Vehicles can't be parked inside our IT Park since there would not be any slots for parking availability on the specific timing so make ensure that you park the vehicle outside the building premises.

Time: 09.00AM-5.00AM Regards Steve

Course:	B.Sc. Biochemistry	Department:	Biochemistry & Bioinformatics
Academic Year:	2022 - 2023	Even/Odd	Odd
Industrial Visit No:	01	Date:	16/09/2022

On the day of Field Work on 16.09.2022, I B.Sc. Biochemistry students of our college enthusiastically visited Frontier Mediville Research Centre, Chennai. A detailed description on the therapeutic interventions related to stem cell, genetics and genetic engineering were briefed. R&D activities on 5 critical areas like Stem Cells, Tissue Engineering, Cardiac Based Tissue Engineering, Genetic Research, Molecular and Microbiology were explained and applications in the areas of Basic Life Sciences, Allied Health Sciences, Tissue Engineering, Stem Cell Therapy, Biotechnology, Biological Cardiovascular Implants and Nursing were described.
